Mrs. Ertl, why did you choose to start a chess club at school?

“Well, they started coming in here and they enjoyed playing chess, so I just made it a club.”

Chess club meets every Monday at lunch in room 39. In the spring the tournament begins and the top 3 players get their own chess sets as a prize. Everyone is welcome to join.

Halloween

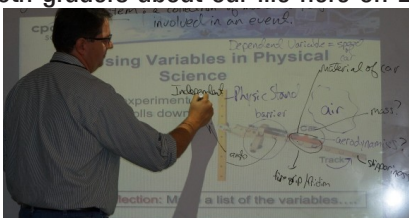

Staff and students showed a lot of spirit this Halloween and dressed up in some fun costumes.

Science Matters

Mr. Delsener, what is your favorite part about teaching robotics and physical science ?

“One thing I really like about teaching robotics is that it gives a chance for students to team up to do fun activities, Something about physical science that I like is teaching the 8th graders about our life here on Earth”

Mrs. Rose, why did you become a science teacher?

“I became a science teacher because I have always loved science. My favorite subject in school was science. I decided to be a teacher because I was good at helping my friends understand concepts in high school and college.”
