

SAN MATEO-FOSTER CITY SCHOOL DISTRICT

September 2017

Dear Parents/Guardians,

San Mateo County Safe Routes to School (SRTS) supports initiatives to increase the number of students walking, biking and carpooling for health, environment and traffic mitigation purposes. To aid in program evaluation and planning, the SRTS program regularly gathers travel evaluation data. This year, Student Travel Tally data is being collected on two days in September and two days in April or May. Parent/guardian input about how your children get to and from school and related concerns about their journeys will be obtained through your completing an online survey.

Thank you for taking the time to complete this survey. Your feedback allows us to adjust SRTS education and encouragement program features to best meet the needs of each individual school. Your feedback will also be shared with decision makers who can address infrastructure issues regarding safe walking and biking. This survey will take approximately 5 minutes to complete. Please complete a separate survey for each of your children if they attend different schools and/or do not travel to and from school by the same means as each other.

The online survey is available at:

ENGLISH <https://www.surveymonkey.com/r/5Z9TVC7>

SPANISH <https://es.surveymonkey.com/r/5ZPDQ8V>

If you do not have access to the internet, please come to the school office and we will aid you in completing the survey.

The online parent survey and classroom hand tally results will be kept anonymous. Should you have any questions about data collection or the uses of the data, please contact Wini McMichael, wmc michael@smfcsd.net, 650-312-7243

Sincerely,

Heather Gomez
Principal, Bowditch Middle School
