

Greetings Brewer Island School Community,

The weeks of August and September have been quite eventful as we have kicked off the start of an exciting 2016-2017 school year! It has been an amazing experience thus far as I have witnessed such great school community spirit at Brewer Island Elementary!

I have greatly appreciated the community involvement in participating in the Dolphin Drive annual fundraiser. Because of your generous contributions, our students will directly benefit and our educational programs will continue to thrive and be enhanced by your giving. Simply put, your commitment to our school matters and really makes a difference!

This involvement is more than just contributing a dollar amount. Community participation moves into areas of volunteering in your child's classroom and in district sponsored programs such as Art in Action. I appreciate all the support that parents and staff members provided at our annual Ice Cream Social. What a wonderful school community event! I had a blast mingling with all school community members and taking pictures of the event at the same time!!

Just recently, our BIES community participated in the annual Champion's Day sponsored by our PTA in cooperation with Herb Perez and his Gold Medal Team to promote physical fitness, health and wellness. Thanks to all involved for the many hours of hard work in coordinating this worthwhile event. Brewer Island students loved participating in the different activity stations, and it was great to see Dolphin spirit in action!!

At BIES, we are always looking forward to parents who are willing and have the time to volunteer and help at our school. Thanks to ALL the parents who give of their weekly time to support our students, staff and our educational programs. If you are interested in contributing to our wonderful school community in any way, please don't hesitate to reach out. We will be sure and respond with enthusiasm!

In closing, I remain excited to lead and be a partner with all of you as we join together to support our students in their academic and social success!

Best,  
Gregg Elliott  
Principal - Brewer Island Elementary School SMFCSD
