

SchoolMessenger Phone, Email & Text Messaging

SchoolMessenger is a web-based communication tool currently used by the San Mateo-Foster City School District. The system enables the District and its schools to personally communicate with parents/guardians to support emergency preparedness, school community involvement and student attendance. The phone number, email address, or cell phone number that is used for these communications comes from the District's student information system.

Phone Calls

Phone calls are sent to the phone number of the primary contact for your child. If you would like to change the number that is called please contact your school.
